

T2M Annual Conference 2020 cancelled

March 12th, 2020

In the context of COVID-19 outbreak, I am extremely sad to announce the cancellation of the T2M Conference that was due to be held at Aix-en-Provence from March 26th-27th, 2020.

Registered participants will be contacted to arrange a refund.

This is a particularly unfortunate decision. It would clearly have been a great scientific and social event ([see the program here](#)). I would like to thank the extremely efficient AMSE staff, especially Marine Boléa, the sponsors of the conference for their support, the members of the T2M scientific committee and all organizers of special sessions for their implication in the scientific program, Oleg Itskhoki and Michèle Tertilt for having accepted to give the keynote lectures and made the call for papers so attractive.

I would like also thank Céline Poilly for having accepted to host T2M at the AMSE one year ago. We have worked in tight collaboration during the last year and her contribution has been decisive for the success of the T2M 2020.

Indeed, even cancelled, T2M 2020 will remain as a success.

More and more of you are joining T2M and this will serve the future development of our network. I take this opportunity to announce that Pablo Winant will be the next President of the scientific committee of T2M. It has been a real pleasure for me to serve the development of research in macroeconomics during the last four years and it is an honor to have Pablo as a successor. Pablo is an outstanding researcher and it is really great news for T2M to benefit from his experience and his stimulating views on the future of macroeconomics.

I wish you good health, with my best regards.

Fabien Tripier
President of the scientific committee of T2M
